## About Us

Pick Your Pack is a growing name in the packaging industry, committed to delivering innovative, sustainable, and cost-effective packaging solutions.

We specialize in providing a complete range of packaging products tailored to meet the needs of modern businesses from e-commerce sellers to large-scale distributors.

## Why Choose Pick Your Pack

### Custom Printing

Bring your brand to life with fully customized packaging designs.

### Eco-Friendly Options

Sustainable packaging for environmental conscious businesses.

### Flexible Solutions

Packaging tailored for every product and industry.

### Cost-Effective Pricing

Direct solutions that help reduce packaging costs.

### Premium Quality

Strong, durable materials ensuring product safety.

### Fast Dispatch/ Delivery

Reliable logistics ensuring timely delivery.

## Our focus is on

Quality Assurance

Customer Satisfaction

Customization

Fast Delivery

Technical Product Specifications

# Paper Courier Bag

Eco-friendly paper courier bags designed for secure shipping.

Made with durable laminated material & strong adhesive seal, they ensure tamper resistance, product safety, and offer customizable branding for enhanced visibility.

## Material

Crafted using high-grade PE laminate and poly laminate, our paper courier bags deliver exceptional strength and durability, ensuring your shipments stay protected throughout transit.

## Adhesive

Equipped with a high-strength permanent adhesive, these bags ensure a tight, reliable seal that keeps contents secure and prevents tampering during delivery.

## Available Sizes

7.5" x 8"

9" x 11"

11" x 14"

13" x 16"

15" x 18"

17" x 21"

## Specifications

### Minimum Order Quantity

Standard	2,000 pcs
Custom	10,000 pcs

### Seal Type

Permanent Adhesive

### Material Options

PE Laminate | Poly Laminate

*Note :- Usable dimensions listed, flap size is additional. Customization available based on order volume.*

## Technical Product Specifications

# Poly Courier Bag

Durable poly courier bags made from high-quality LDPE, offering lightweight, waterproof, and tear-resistant protection.

Designed with strong adhesive seals, they ensure secure delivery while supporting custom branding for improved visibility.

## Material

Made from high-quality LDPE, our poly courier bags offer excellent durability, strength, reliable protection during transit.

## Adhesive

Equipped with a strong adhesive seal, each bag ensures secure closure, keeping your parcels safe, tamper-resistant, and intact throughout delivery.

**Tamper-Evident Seals**

Technical Product Specifications

# Thermal Labels Roll

High-quality thermal label rolls designed for clear, smudge-free printing.

With strong self-adhesive backing and smooth dispensing, they ensure efficient labeling for shipping, logistics, and e-commerce operations with customizable size options.

## Material

Made from Premium-quality thermal paper, ensuring smooth surface, durability, and clear, high-resolution printing for all labelling needs.

## Adhesive

Features strong self-adhesive backing, providing firm grip on surfaces and ensuring labels stay securely in place during handling, storage, and transit.

## Features

Self Adhesive

High-Quality Printing

Easy Dispensing

Technical Product Specifications

# Self Adhesive Tape

High-strength self-adhesive tape designed for secure carton sealing. Offers strong bonding, smooth application, and durability.

Available in multiple sizes and customizable options to enhance packaging efficiency and brand visibility.

## Material

Made from high-quality BOPP film, offering excellent strength, flexibility, and durability for reliable carton sealing and packaging applications.

## Adhesive

Coated with strong acrylic or hot-melt adhesive, ensuring firm bonding, long-lasting hold, and secure sealing during handling, storage, and transit.

Technical Product Specifications

# Press-Bubble Paper

Eco-friendly press-bubble paper provides excellent cushioning and protection for fragile products. Lightweight, recyclable, and customizable, it offers a sustainable alternative to plastic bubble wrap for safe and secure packaging.

## Material

High-quality kraft paper, designed with embossed bubble texture to provide effective cushioning, durability, and an eco-friendly protective packaging solution.

## Available Sizes

12" x 20"

## Recyclable

Sustainable and recyclable materials, press-bubble paper supports eco-friendly packaging practices while reducing plastic waste and environmental impact.

## Specifications

### Minimum Order Quantity

Standard

500 Pcs

### Material Options

80 GMS Kraft Paper

## Features

Eco-Friendly Materials

Different Bubble Types

Technical Product Specifications

# Honeycomb Paper Roll

Honeycomb paper roll is an eco-friendly cushioning solution designed for wrapping and protecting fragile products. Its expandable honeycomb structure provides excellent shock absorption while reducing plastic packaging usage.

## Material

Made from durable kraft paper with a honeycomb-cut structure, offering flexible cushioning, & sustainable protection for safe product packaging and transit.

## Available Sizes

15 Inch / 100 Mtr

## Specifications

### Minimum Order Quantity

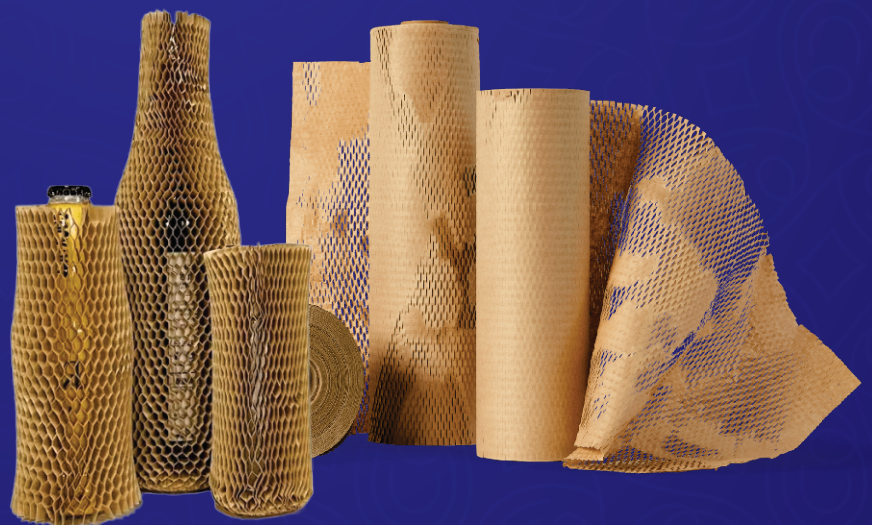

Standard

10 Rolls

Material Options  
80 GSM

## Features

- ✓ Eco-Friendly Materials
- ✓ Save Packing Time
- ✓ Reduce The Accumulation
- ✓ Substitute For Raffia

Technical Product Specifications

# Paper Carry Bag

Eco-friendly paper carry bags made from durable kraft paper, ideal for retail and gifting.

Strong handles, customizable printing, and recyclable material make them a sustainable packaging solution.

## Material

Made from premium-quality kraft paper, offering excellent durability, strength, and an eco-friendly alternative for reliable retail & shopping packaging applications.

## Benefits

### Renewable Resource

Made from sustainably sourced paper materials, promoting environmentally responsible & renewable packaging solutions.

### Naturally Biodegradable

Unlike plastic, paper decomposes naturally over time, reducing environmental impact and supporting cleaner surroundings.

### Safer for Wildlife

Paper packaging is less harmful to animals and marine life compared to conventional plastic waste.

### Supports Recycling

Encourages recycling practices & contributes to a sustainable circular economy through reusable paper materials.

## Specifications

### Minimum Order Quantity

Standard

500 Pcs

*Customization options are available based on order quantity & specific packaging requirements.*

Technical Product Specifications

# Honeycomb Sleeves

Honeycomb sleeves provide eco-friendly cushioning and protection for fragile and cylindrical products. Their expandable hexagonal structure absorbs impact effectively, ensuring safe transit while enhancing packaging presentation and sustainability.

## Material

Made from high-quality kraft paper with an expandable honeycomb structure, offering strong cushioning, flexibility, and sustainable protection for delicate and fragile products.

**Eco-Friendly Materials**

**Hexagon Shape**

**Cost Effective**

**Enhance Customer Experience**

## Available Sizes

Height / Sleeve Size	MOQ (in Pcs)
100 Mm	1400/ Box
150 Mm	700/ Box
200 Mm	700/ Box
225 Mm	350/ Box
300 Mm	350/ Box
350 Mm	350/ Box
400 Mm	700/ Box
450 Mm	350/ Box

## Specifications

Material	Kraft Paper
Cell Size	10 MM
Expansion	80/160 Sheet
Width	10/20 Possible
GSM	70
Length	Max 90 MM

Technical Product Specifications

# Kraft Mailer With Gusset

Durable kraft mailers with expandable gusset design provide extra storage capacity for bulky items. Eco-friendly, tear-resistant, and secure, they ensure efficient shipping while enhancing packaging flexibility and protection.

## Material

Crafted from premium-quality kraft paper with protective lamination, ensuring superior strength, durability, tear resistance for safe & reliable product packaging.

Available Sizes	7.5" x 8"	13" x 9"
	9" x 11"	13" x 16"
	11" x 14"	15" x 18"
	10" x 7"	16" x 12"
	17" x 21"	

*Note :- Usable dimensions listed, flap size is additional. Customization available based on order volume.*

## Specifications

**Minimum Order Quantity**  
100 Pcs

**Security Tape**  
Permanent Adhesive

**Material Options**  
PE Laminate  
and Poly Laminate

- Durable Material
- Expandable Gusset
- Eco - Friendly
- Customizable

Technical Product Specifications

# LDPE Transparent Bag

LDPE transparent bags offer flexible, durable, and moisture-resistant packaging with clear visibility. Ideal for retail, industrial, and storage applications, they provide reliable product protection while enhancing presentation and handling convenience.

## Material

Made from premium-quality LDPE material, offering excellent flexibility, durability, moisture resistance, and clear transparency for secure & reliable packaging applications.

## Adhesive

Designed with strong sealing support to ensure secure packaging, helping protect products from dust, moisture, and handling during storage and transit.

Enhanced Product Protection

Lightweight & Cost-Effective

Wide Range of Products

<b>Available Sizes</b>	6" x 8"	14" x 18"
	8" x 10"	15" x 19"
	10" x 12"	18" x 20"
	10" x 14"	20" x 23"
	12" x 14"	24" x 30"
	12" x 16"	30" x 40"

**Minimum Order Quantity**  
100 KG

**Material Options**  
LDPE , 55 Microns

*Note :- Usable dimensions listed, flap size is additional. Customization available based on order volume.*

Technical Product Specifications

# LD Stretch Film

LD stretch film provides secure and stable packaging for palletized goods.

With excellent stretchability, puncture resistance, and moisture protection, it ensures safe storage, handling, and transportation across logistics operations.

## Material

Made from high-quality LLDPE material, offering superior stretchability, strength, puncture resistance, and reliable load stability for secure packaging and transportation applications.

## Benefits

### Improved Efficiency

Easy application and smooth handling help speed up packaging operations, improving productivity in warehouse and logistics environments.

### Enhanced Safety

Provides secure load stability, reducing the risk of product damage during storage, handling, and transportation.

### Cost-Effective Solution

Delivers reliable performance and strong protection at an economical cost, making it ideal for high-volume packaging needs.

### Quiet Unwinding

Selected variants are designed for low-noise application, ensuring a more comfortable and efficient working environment.

High Stretchability

Excellent Puncture Resistance

Clarity and Transparency

Versatile Thickness Options

Available Sizes

6 Inch

24 Inch

18 Inch

36 Inch

Technical Product Specifications

# Plastic Bubble Wrap

Plastic bubble wrap provides lightweight cushioning and shock absorption for fragile products during shipping. Durable and flexible, it protects items from damage while ensuring safe handling, storage, and transportation.

## Material

Made from high-quality polyethylene material with air-filled cushioning bubbles, providing lightweight, durable, & reliable protection for fragile and delicate products during transit.

## Benefits

### Cost-Effective Solution

An affordable and practical packaging option, especially suitable for bulk packaging and shipping requirements.

### Saves Packing Time

Quick and easy application helps streamline packaging operations and improve overall efficiency.

### Reduces Product Damage

Provides reliable cushioning protection, minimizing transit damage and reducing product returns or replacements.

### Compact Storage

Can be conveniently rolled and stored, occupying minimal space when not in use.

Light Weight

Cushioning Protection

Tear Resistant

Flexible

**Available Sizes**

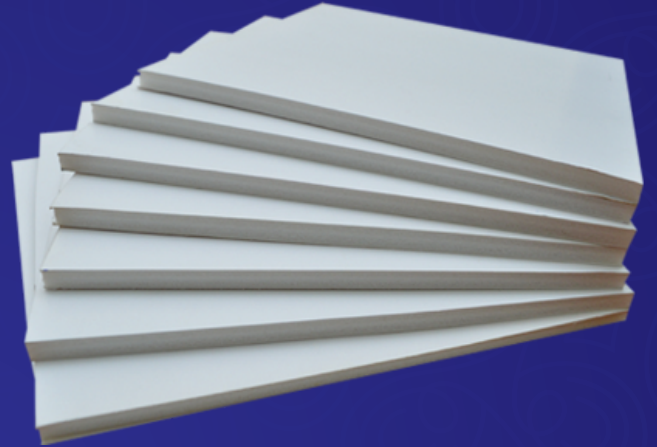

15Inch / 100mtr

Technical Product Specifications

# Thermacol (EPS) Sheets

Thermacol (EPS) sheets are lightweight, durable insulation materials used for packaging, construction, and crafts.

They provide excellent thermal resistance, shock absorption, easy cutting, and cost-effective protection across various applications.

## Material

Made from expanded polystyrene, a lightweight, rigid plastic foam derived from styrene polymer, offering excellent insulation, cushioning, and moisture resistance for packaging, construction, and craft applications

## Benefits

### Lightweight and easy to handle

EPS sheets are very light, making transport, installation, and cutting simple without heavy tools or extra labor.

### Excellent Thermal Insulation

Traps air within its structure, reducing heat transfer and helping maintain temperature in buildings or packaging.

### Strong Shock Absorption

Absorbs impact effectively, protecting fragile items during storage & transportation.

### Cost-effective and versatile usage

Affordable material suitable for packaging, insulation, décor, and craft applications across multiple industries.

Lightweight & Easy Handling

Excellent Thermal Insulation

High Shock Absorption

Cost-effective Solution

## Available Sizes

Standard Size 14" x 34"

## Specifications

### Thickness

12.5 MM, 20 MM,  
25 MM, 37.5 MM,  
50 MM & 75 MM

### Density

8-30 kg/m<sup>3</sup>

Technical Product Specifications

# EPE Foam Roll

EPE foam rolls are lightweight, flexible cushioning materials offering excellent shock absorption and moisture resistance.

Ideal for packaging, wrapping fragile items, surface protection, and insulation, they are reusable, durable, and cost-effective.

## Material

Made from expanded polyethylene, a soft, flexible, closed-cell plastic foam that provides cushioning, moisture resistance, and durability for packaging, insulation, & protective applications.

## Available Sizes

### EPE Packaging Rolls Width - 1500 MM

Thickness (MM)	Length (MTR)
TG- 1	400
TG- 2	200
TG- 3	135
TG- 4	100
TG- 5	80

### EPE Packaging Rolls Width - 1400 MM

Thickness (MM)	Length (MTR)
5 MM	80
6 MM	70
8 MM	50
10 MM	40
12 MM	35

Technical Product Specifications

# BOPP Bags

BOPP bags are durable packaging solutions made from biaxially oriented polypropylene film, offering high clarity, strength, and moisture resistance.

Ideal for food grains, fertilizers, and retail packaging with excellent printability.

## Material

Made from biaxially oriented polypropylene, a strong, lightweight plastic polymer film known for high tensile strength, clarity, moisture resistance, and excellent durability for packaging applications.

**High Strength & Durability**

**Excellent Moisture Resistance**

**Clear & Attractive Appearance**

**Superior Printability**

## Available Sizes

- 6" x 8"
- 8" x 10"
- 10" x 12"
- 10" x 14"
- 12" x 14"
- 12" x 16"
- 14" x 16"
- 14" x 18"
- 15" x 19"
- 18" x 20"
- 20" x 23"

## Specifications

### Minimum Order Quantity

100 Pcs, 200 Pcs,  
500Pcs & 100 Pcs

### Thickness

20 - 130 Microns

Technical Product Specifications

# Corrugated Rolls & Boxes

Corrugated rolls and boxes are durable packaging solutions made from layered paperboard, providing strength, cushioning, and protection. Ideal for shipping, storage, and wrapping, they are lightweight, recyclable, and cost-effective.

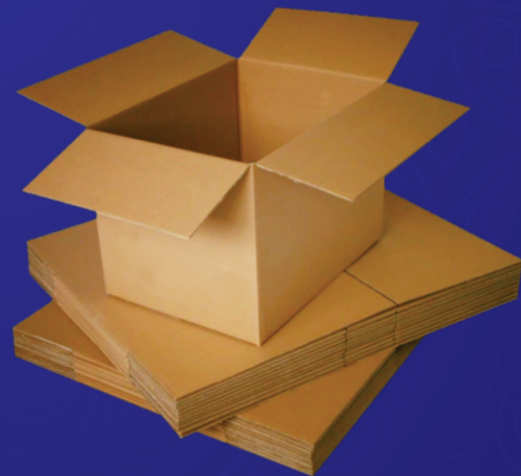

## Material

Corrugated rolls and boxes are made from corrugated fiberboard, consisting of fluted paper sandwiched between linerboards, providing strength, cushioning, durability, and lightweight protection for packaging and shipping applications.

## Features

- ✓ Eco-Friendly Materials
- ✓ High Strength
- ✓ Shock Protection
- ✓ Light Weight

## Available Sizes

8 Inch - 72 Inch

## Specifications

Thickness  
9 - 35 BF

Density  
120 - 300 GSM
